

Letter to Families

Dear Families,

Amani Public Charter School will be closed on Friday, March 13th and Monday, March 16th. At the time of this letter, there have been no known confirmed cases of the Coronavirus at Amani. Staff will continue to use this time to fine tune the tools and techniques that will allow us to operate remotely on a temporary basis. More than just learning about these tools, staff has been practicing with them so that we can better understand operating in a virtual environment. In addition, we will continue with our cleaning and sanitizing practices throughout the building using state of the art equipment. This involves focusing on high-touch surfaces such as doorknobs, hand railings, desks, bathrooms, gym equipment, etc.

As we traverse these uncertain times together, our number one priority is the safety, education and wellbeing of our scholars and families. We understand the burden closing may place on some families. To that end we want to provide meals for those who want it. Amani will be serving lunch between the hours of 11am and 12:30pm. The building will not open for regular instruction. Please continue to monitor your email and phones for correspondence from the school, as well as checking our website for updates.

Sincerely,

Debra Stern, Executive Director -dstern@amanicharter.org
