MINUTES OF A MEETING OF
THE BOARD OF TRUSTEES OF THE
AMANI PUBLIC CHARTER SCHOOL

September 14, 2020

A meeting of the Board of Trustees (the “**Board**”) of the Amani Public Charter School (the “**School**”), was held via videoconference (in light of the New York State PAUSE in response to the coronavirus (COVID-19) pandemic) on September 14, 2020, beginning at approximately 4:30 pm. local time pursuant to notice duly given.

The following Trustees were present in person at the meeting: Sidney Burke, Stephanie Edwards, Tamara Houston, Gene Johnson, Jim Killoran and Patrick Smith.

Also present at the meeting were Debra Stern, Karl Eason, Phil Salmon, Jamel Scott and Bruce Tanner. Sidney Burke presided as Chair of the meeting, and Stephanie Edwards recorded the minutes as Secretary.

Attached as Exhibit A are the materials provided to the Board at or prior to the meeting.

After noting that a quorum was present, the Chair called the meeting to order.

1. Approval of Prior Minutes. The minutes of the Board meetings held on August 10, 2020, and August 31, 2020, were reviewed and unanimously approved.
2. Public Comment. The Chair opened the floor for public comment. No one from the public chose to speak.
3. Mission Moment. Mrs. Stern reported to the Board regarding the new school year being off to a good start, as the public meeting went well and so did Chrome book distribution.
4. Executive Director’s Report/ School Snapshot/ Reopening Plan. Mrs. Stern discussed with the Board the School’s reopening plans. She noted that the School’s virtual public meeting was well attended, and the guest speaker was Allan Houston. Mr. Eason shared that the Chromebooks distribution was a success as 374 of 400 Chromebooks were distributed, and that there was a plan to distribute the remaining Chromebooks. Mr. Scott shared that today was the first day of virtual learning and it was a success. The teachers and students were comfortable logging on. Mr. Salmon reported on school registration, and the School’s plans to manage enrollment to minimize the effects of expected attrition. Mr. Salmon also reported on the School’s transition to online registration. He explained that while parents were able to complete the application there were some issues with failures to upload the required documentation. Parents were able to bring the documents to the School on the same day that they picked up their child’s Chromebook. Mr. Tanner discussed all the modifications made to accommodate the return into the building. Mr. Tanner also discussed the plans for food services. The School has also implemented an ongoing food pantry and is accepting donations. Mrs. Stern will share the food pantry preferred items list with the Board.

5. Items for Future Meetings.

- (a) Wifi- hot spots
- (b) Student Assessment schedule
- (c) School building reopening planning
- (d) Strategic planning
- (e) ED Self-evaluation / SMART goals for ED priority plan.
- (f) Board self-evaluation planning (Board retreat).

6. Adjournment. There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Stephanie Edwards
Secretary

APPROVED:

Sidney Burke

9/29/2020 8:13:34	ashorew@amancharter.org	Somewhat likely	Based on what you know right now, I think we are not comfortable with returning to work in the Brick and Mortar as part of the Hybrid model. I would prefer to stay in the virtual environment until we have more information on the building each day would be put many of us in a position for being contacted with recurring news of a hybrid model.
9/29/2020 14:31:15	abornan@amancharter.org	Somewhat likely	Make remote learning optional. The amount of people in this school will have to be very low. From students to staff the numbers would have to be extremely low.
9/29/2020 12:48:50	abarbello@amancharter.org	Extremely unlikely	keeping sick scholar's in an isolated room instead of the main office. Feel as though the building would need a thorough professional cleaning system, etc. Additionally, a set safety routine for scholar and staff check-in and check-out. I would prefer to stay in the virtual environment until we have more information on the building each day would be put many of us in a position for being contacted with recurring news of a hybrid model.
9/29/2020 12:55:25	ajlaine@amancharter.org	Somewhat unlikely	Deep cleaning of entire building (all spaces regardless of frequency of use) which is impractical, going back will increase risk of spreading Covid. Just today in the news NYC cases are going up. In my opinion cases will go up when it gets colder. This is from leaving to Dr. Fauci and other in-person gatherings of a lot of people. I wish that we could go safely back to teaching regularly but I trust science and what the experts say.

Diagnostic Exams - These exams are offered 3 times a year: Beginning-of-Year, Mid-Year and End-of-Year. These exams are computer-based and designed to pinpoint students' grade-level placement on a scale of Kindergarten - 12th grade. These exams are not aligned to state exams but, rather, show overall growth.

Interim Assessments/Predictive Exams - These exams are offered three times a year: November, January and four-weeks before each respective state exam. These tests are standards-based and assess the particular standards that have been taught up until that point in the school year. The Predictive exams mimic the state test, both in length and composition.

Reflection and Analysis Tracker Templates (RATTs) - These are completed by teachers and coaches after every interim exam. They are used to analyze the data and create a reteach plan, to be implemented the following week, to target the standards where scholars are struggling the most.

RETEACH weeks - Reteaching happens the week after RATTs are completed. At the end of the reteach period, scholars are reassessed on the standards that had the lowest proficiency rates during the IA.

COVID Testing Background

GOAL

Establish a baseline of health for the community

Westchester County

Westchester County is not currently offering organized COVID testing for students and teachers. This could potentially change if "hot spots" in the County develop.

Mount Vernon

The Mount Vernon City School District is not equipped to conduct testing in the event of a large scale outbreak. If COVID-19 testing is required, families and staff of the Mount Vernon City School District will be accommodated at the AFC Urgent Care in Mount Vernon.

Amani

Amani can require students and staff to take a COVID test and implement weekly "pool" testing, as long as Amani consults with the local health department before implementing the testing. Similarly to students, teachers must also complete a testing consent form. If a teacher or student refuses to participate in the testing, they can be prohibited from entering the school building and virtual teaching/learning can be offered.

- **Salvia Testing (Pool)**
JCM Analytics (JCMA) and Mirimus Laboratories (Hackley and Rye Country Day)
Cost TBD
Get more information from JCM Analytics
- **Rapid Kit (TBG Biotechnology Corp.)**[Rapid Test Kit](#)
Antibody test (symptomatic and asymptomatic carriers). Blood through lancet. No special equipment, 3-5 minutes. Need a medical person to administer. \$25 per test, 400 for student and staff = \$10,000 per testing

Additional Questions

Frequency of testing?

If positive, who needs to quarantine?

to me

Hi Phil,

I hope you are well too. Amani can require students and staff to take a COVID test and implement weekly "pool" testing, as long as Amani consults with the local health department before implementing the testing. Similarly to students, teachers must also complete a testing consent form. If a teacher or student refuses to participate in the testing, they can be prohibited from entering the school building and virtual teaching/learning can be offered.
